The manual does not define requirements; it is intended to clarify questions concerning the technical development of FMEAs. This manual is aligned with SAE 31739, Summary of Changes in the 4th edition FMEA Reference Manual. The DFMEA and PFMEA methods described in the 4th edition FMEA Reference Manual include those associated with design at the system, subsystem, interface, and component level and the process at manufacturing and assembly operations.

FMEA 4th Edition - Scribd

Service Production Part Approval Process (Service PPAP) is a supplement to Production Part Approval Process (PPAP) 4th edition. This document identifies PPAP requirements for all service parts. These requirements are intended to be clarifications to the PPAP process for service parts and not additional requirements.

(PPAP) Production Part Approval Process | AIAG

- As in the AIAG Guidebook, fourth edition, the AIAG & VDA FMEA Handbook employs 10-point rating scales to evaluate severity, occurrence, and detection.
- The recommended method of combining these three indices into a single composite value is no longer the risk priority number.
